Teacher's instructions

Cut up one pack of cards per 2 students (there are two packs on each sheet) and remove any cards that you don't want to cover or haven't presented. Ask them to shuffle and deal out 5 cards per person. They can look at their cards but shouldn't show them to their partner. They have to make statements about themselves that they think will also be true to their partner, e.g. "I don't like eating frogs". They can discard a card if their partner answers with the expression that is on their card. If the opposite is true of their partner they should say "Really, I do/ don't/ am/ aren't" etc. The first person with no cards is the winner.
