### Game A: Sentence completion guessing game

Fill at least half the sentences above with true information for you. Read out just the part you have written in one gap (not the printed words around it) and see if your partner can guess which sentence you wrote that in.

OR

### Game B: Sentence completion bluff

Fill the sentences above with a mixture of true and false information. Read out one sentence and see if your partner can guess whether it is a fact or not, perhaps after answering questions about that thing (you can continue lying if it was a made up example).

### Language analysis

Write the correct preposition and verb pattern in each of the sentences above.
