

Social Science vocabulary Sharing personal experiences practice

Choose one of the topics below and tell your partner about your true or made up personal experiences of that thing. After maybe asking for details, they will try to guess if your story is:

- Completely made up
- Completely true
- A mix of made up and true details

If it is the final one above, they can also try to guess which details were true and which were made up.

1. Addiction
2. Advantages of religious belief
