

**FCE Writing Part Two email task on work
Complete First Unit 6**

You have received this email from your English-speaking friend Jennifer.

Some college friends of mine are thinking about getting a working holiday visa and doing a summer job in your country. They'd like to be somewhere and do something that would help them learn about traditional culture.

Can you let me know what jobs they could and should do? What areas of the country might be good for them?

Thanks,

Jennifer
