

**Making Proficiency Use of English Part Two questions challenge with real answers from Cambridge Proficiency Examination Papers 1**

*All the words below are answers from real CPE exam papers. Use them to make exam-style open cloze questions with a gap where the words given are the only correct answers. You will get one point if the other team doesn't get the right word to go in the gap and that afterwards they agree that no other answers are possible. You should write at least three questions, starting with any words from below that you like. Unlike the real exam, you can write different unconnected sentences for each word (not a whole text).*

*After you finish the game, ask the whole class about any words above which you couldn't think of a sentence where that was the only possible word to go in a gap.*
