

CPE Speaking Part Two on architecture

In groups of three (or four if necessary), take turns using pictures provided by the teacher and a script from below to set Speaking Part Two tasks for two of your partners.

Task A: Modern city life

CPE Speaking Part Two examiner's script A

"Now, in this part of the test you're going to do something together. Here are some pictures of modern city life.

First, I'd like you to look at pictures A and B and talk together about which one you would like to visit. You have about a minute for this, so don't worry if I interrupt you.

Thank you. Now look at all the pictures.

I'd like you to imagine that a magazine is going to publish an article on city life today. These pictures will be used to illustrate the article.

Talk together about what the pictures show about the contemporary city. Then suggest one more aspect of present city living which should be included in the article.

You have about three minutes to talk about this."

-----fold, cover or cut-----

Task B: Greenery

CPE Speaking Part Two examiner's script B

"Now, in this part of the test you're going to do something together. Here are some pictures of green spaces near where people live.

First, I'd like you to look at pictures A and talk together about how you would feel about living in this place. You have about a minute for this, so don't worry if I interrupt you.

Thank you. Now look at both of the pictures.

I'd like you to imagine that a professor is going to give a lecture to architecture students on the importance of greenery. These pictures will be used in the lecture.

Talk together about what the architecture students can learn from the pictures. Then suggest one more aspect of the importance of greenery which it is vital for them to learn about.

You have about three minutes to talk about this."
