Describing appearance fairy tale chain story/ consequences

Fill just one gap below, fold the paper so the next person can't see it and pass it to them. Do the same with the second line of the page you receive, and pass it again. Continue until the stories are finished, pass one more time, open the one you receive, and discuss if the stories make sense or not.

Ask about anything in the stories which you are not sure how to complete etc, working together to make good sentences for fairy tales each time.

Now, write your own fairytale. It can be one that you have made up yourself, or a story that you have heard before. Try to use words to describe what the characters look like with "She was…", "He had…"*, etc. Write at least one page.*
