

Arts and crafts vocabulary yes no questions games

Arts and crafts make me say Yes

Choose a word or expression from below and make a Yes/ No question from it about arts and crafts that you think your partner will say "Yes" to. You get one point if their (honest) answer is "Yes", but no points if they say "No", "I don't remember", etc.

Extensions

Play the same game, but this time with one point for "No" answers. Then play the same game, but this time with one point for "I don't know" or "I don't remember" (and no points for "Yes" or "No").

Arts and crafts you must say Yes

Your partner will ask you a Y/ N question about arts and crafts such as one of those below. Answer "Yes" to all of their questions, even if your real answer is "No", "I don't know", etc. After asking you for more information, your partner will guess if your "Yes" answer was true or not.

Arts and crafts requests games

Choose a word or expression from below, request your partner to do something related to that, and listen to their (real, natural) response. You get one point for each time they say "Yes".

Try to politely say No to as many requests related to things below as you can, giving a detailed reason for your negative response each time. When you finally say Yes to something, switch roles and do the same.
