IELTS Masterclass Unit 14 vocabulary and speaking

Before or after doing the Hyperpolyglots reading, match up words from the left and right of the same section below to make collocations.

Check with the IELTS Masterclass Unit 14 text.

Check any ones you still aren't sure about as a class.

Highlight any completed collocations which are specifically about language.

Make sentence with those expressions (either about hyperpolyglots or about any other subject connected to language).

Working with your partner, speak about hyperpolyglots for as long as you can, using the list of collocations to help if you like.

Try again with a different partner, this time without looking at the collocations to help.
