

IELTS Speaking Part Two tasks about technology

Student A

Say or listen to the instructions for IELTS Speaking Part 2 then pass this task to your partner. Allow them one minute to prepare and then ask them to start speaking. Ask one or two more questions about what they said after they finish speaking or after two minutes.

Talk about a piece of technology that you often use. You should mention:

- What it looks like
- How you use it
- Why you often use it

And if you like using this technology or not, and why.

-----fold, cover or cut-----

Student B

Say or listen to the instructions for IELTS Speaking Part 2 then pass this task to your partner. Allow them one minute to prepare and then ask them to start speaking. Ask one or two more questions about what they said after they finish speaking or after two minutes.

Talk about some technology that you have started using in the last few years. You should say:

- When you first started using it
- What it does
- How it is different to other similar technology

And say whether you think you will still be using it in ten years' time or not, and why.

-----fold, cover or cut-----

Student C

Say or listen to the instructions for IELTS Speaking Part 2 then pass this task to your partner. Allow them one minute to prepare and then ask them to start speaking. Ask one or two more questions about what they said after they finish speaking or after two minutes.

Talk about some science or technology that you thought was difficult to understand:

- When you first heard about this science or technology
- Why you thought it was difficult
- What you did to try and understand it better

And say if you have the same feelings about that technology now or not, and why.
