

Food vocabulary 20 Questions

Incredible English 2 Unit 6

Secretly choose a food in the way that your teacher says, for example:

- take a food flashcard, look at it and put it face down on the table
- take a letter and think of a food starting that way
- take a piece of plastic food and hide it in your hands
- make your own choice of food

Answer questions like those below with just "Yes" and "No" (plus maybe "Sometimes", "It depends" and/ or "I don't know") until someone guesses what food you chose, then take turns doing the same.
