What possessions couldn't you live without?

Do you think you have too many possessions? Which should you really get rid of?

What is your most valuable possession? How much is it worth? How much would someone have to offer you for you to sell it?

Do you have any possessions which have so much sentimental value that you wouldn't sell them for any price?

Can possessions make you happy? How long can that happiness last?

When your teacher stops you, look at all of the questions and ask about any you aren't sure about, working together to answer them each time.
