Colours and conditionals sentence completion guessing game
colour vocabulary/ zero, first, second, third and mixed conditionals
Objective IELTS Intermediate Unit 14

Choose a phrase from the next page below and say just the part that you would add to it (not the part already written there). See if your partner can guess which sentence you were completing (from the meaning and grammar), then take turns doing the same with different sentences.

What three grammatical forms could you use to complete the sentences?

Brainstorm colour words such as things you could have said in speaking game.

What does often wearing each colour above mean about someone's personality, do you think?

How popular are the colours above? Is that changing?
