Ordinal number words dominoes
Instructions for teachers
Decide which pack to use, thinking about which will have the right level of difficulty for your students. (They are in order of decreasing difficulty below, i.e. with the hardest top).

Cut up one pack of cards per class or group of two to four students. The dominoes cards each need to have two parts, so don't cut down the middle of the cards. After students work together to put the cards in order, they can:

- Mix the cards up in front of their partner and see if their partner can put them back in order
- Shuffle up all the cards and together race to put them in order
- Play an actual game of dominoes (probably better with two or more packs of cards mixed up together)
- Test each other orally on the word endings
- Do the activity again with a more difficult pack of cards from below

Cards to cut up

Writing ordinal numbers practice

Without looking at the cards for now, write the missing parts in each of the ordinal words below. They are given in order:

fir_____
seco_____
thi_____
four_____
fif_____
six_____
seven____
eight___
nin_____
ten____

Use these mixed answers to help with the task above. One can be used more than once.

h
nd
rd
st
th

Without looking above, or at the cards for now, write the missing parts in word below. They are in the correct order.

_____st
_____nd
_____rd
_____th
_____th
_____th
_____th
_____th
_____th
_____th

Use these mixed answers to help:

eigh
fif
fir
four
nin
seco
seven
six
ten
thi

downloaded from https://tefltastic.com

Correct these ordinal numbers:
farst
secand
thard
forth
fivth
sikth
sevenuth
eightth
nineth
tenuth

Without any help, try to write all the ordinal numbers, first as figures and endings, and then as words.
